

## ELECTRICAL ENCLOSURES & ACCESSORIES

**ISC** is ready to provide all of your custom design modifications.

ISC Sales carries a full line of custom electrical enclosures for a wide range of industrial and commercial applications for both end users and OEM's.

ISC Enclosures are manufactured from the finest stainless steel, aluminum and domestic carbon steels available. All stainless steel products come with a brushed finish and all carbon steel products have a powder coated finish.

Our enclosures are UL/cUL approved & adhere to the National Electrical Manufacturers Association (NEMA) standards as well as the Joint Industrial Council standards. Custom designs are engineered and manufactured with the support of CAD/CAM technology along with a team of experienced plant personnel.
